

## How Has Adult Education Opened Doors For Me

My name is Josh Ehrhart. I work at Portage Goodwill. I have been at Goodwill for 4 years. Before Adult Education, reading was very difficult. I chose adult education because I wanted to improve my reading skills so I could become a manager.

My life has changed for the better. I can read a lot Better and also write better. It has been hard to take the time to improve as I work a lot of overtime.

I feel like I can do my job better. I can read directions better. I even scored point gains and level gains in reading. Going to school has helped me a lot to do my job better. Using the North Star program, I can text on my phone, email messages and basic computer skills on the new cash registers that are part of my job. The lessons in reading and language have improved my spelling .

I am proud of myself that I decided to go back to school. It has helped me in many ways by opening doors to hopefully lead to a management position that I can be proud of. Thanks for having Adult Education.

Josh Ehrhart
